

Revelation

Pat Parelli had to shoe “Revelation”
(Quarter horse stallion, 6 years)
because he was too sensitive on his feet.
With his nailed on steel shoes,
Revelation’s feet started to get flat.
His heels went down and his toe got long.
He even started stumbling a bit when he
wasn’t paying attention.

As soon as we put our turfcord on he
stopped stumbling. You can clearly see
how his toe angle immediately started to
improve and his coronet starts looking
more relaxed.

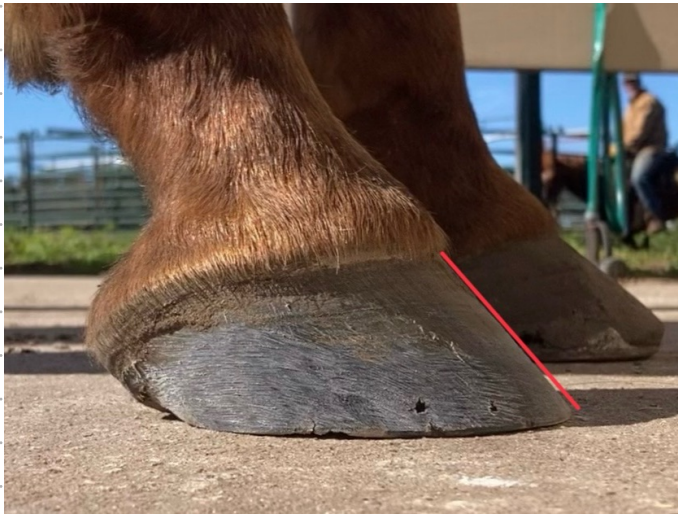

On the sale he actually walked barefoot.

Improving angle of hoof wall "Revelation"

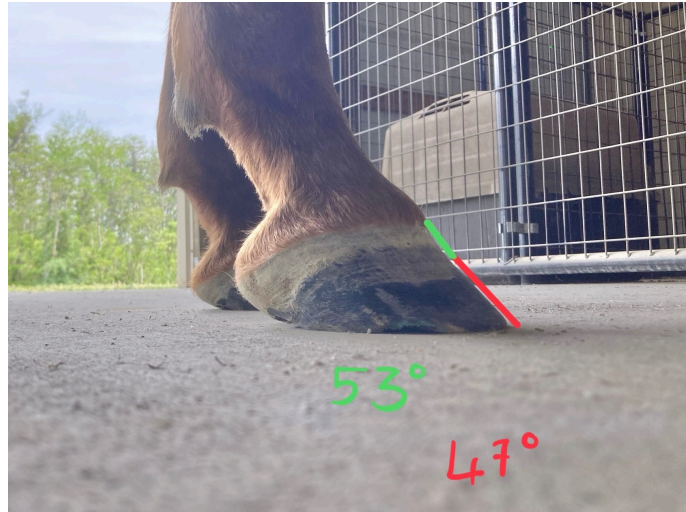

Jan.01.2024

after 3 applications

April10.2024

- very flat

- toe started to get more upright (6 degrees)

- stressed coronet

- coronet started relaxing

- parts of white line red
- part of the wall broke out

- healthy looking white line
- hoof wall regenerated
